

DELETING THE PASSWORD FILE OUT OF AN AML7100 SCANNER

- Get to a prompt by hitting Alt+Func+5(Alt+F5)
- At the prompt type `rm /jffs2/settings.global`
- Reboot the AML7100
- Power unit back on and go into the menu by pressing menu in the bottom left hand corner of the unit
- In the menu select contrast and press enter twice, you will see saving... at the bottom of the screen, and this will rebuild the settings.global file
- The password is now cleared
