

The How to Reference File Print fix for HP Laser Printers

Problem: Customer goes to print the How to Reference files on an HP Laser Printer
It doesn't work.....

Solution: On the HP Laser Printer 4000 Series you will need to set the Append
CR/LF (4000,4050,4100 etc) Option to YES!

Setup: Press Menu Button Right until you get to Printing Menu
Press Item Left.. Until you get to Append CR/LF....
Press Value "+" to change option from no to "YES"
Press Select to Save Changes...
Press Menu right until your LED reads "Ready"
