

## MODEM ERROR- "Cannot Disable ttyA01-Contact System Administrator

When trying to log in over a Modem, if you receive the above error message, you will need to follow the steps listed below....

- a. Enter Scoadmin (# type from the prompt "**scoadmin**")
- b. **Tab** to the option "System", then hit the **enter** key
- c. **Tab** or Select the option "**Terminal** "
- d. **Tab** or Select the option "**Terminal Manager**"
- e. You will be prompted for the workstation that you desire. Example: "ttyA01"
- f. **Escape** and **Tab** to Quit
- g. Your Modem should now work!
