

Dial In Modem disconnects after 7 minutes...

Problem- See title to problem

Solution- Log in as a Super user
From the prompt type **# cd /abcsdist/32v500/ref/call** (then
hit the enter key)

From the prompt type **# nte ph.modem** (then
hit the enter key)

Find line **mdm1**

Look for **s19=7** and change to **0**

(Note: Do this for all of your modems)

Save and Exit

Now...**Reprogram the modems**
