

Remote Terminal and Modem Usage

Modem: This is for hooking up a Sportster Modem/ and or V.Everything Modem to a Wyse terminal, for remote call in.

Wyse: Set configuration different from standard:

Baud = 19200 or 9600 for slower connections
Personality = Wyse
RCV Hndshk = Xon / Xoff

Modem switch settings, down:

1 3 5 6 8

Cable:

Use a 25 pin serial cable, (a cheap local purchase item.)

Once the Terminal is connected properly, (and turned on), you should have a blinking cursor. From the cursor type in "at" and hit enter. Screen should answer back with "OK". Then use atdtXXXXXXX to dial number.
