

## Advantage Imigit Program and the Inittab

Problem: The New ABCS Imigit program (Dave Anders and Mark Henning worked on) has stopped working. To make sure there is not a problem with your inittab, please validate that the following lines exist.

### NOTE:

If you do not have Digi, then look in /etc/inittab  
If Digi is installed, look in /etc/digi/inittab.base

The lines you are looking for...

img:345:respawn:/sbin/getimage.net

pth:345:respawn:/sbin/getpath.net
